Dear Valued Patients of Ricks Advanced Dermatology/Radiance Medical Spa,

It is with both excitement and gratitude that I write to share some significant news regarding the future of our practice. We have embarked on a new chapter that promises to bring even greater depth and excellence to the care we provide.

I am thrilled to inform you that Ricks Advanced Dermatology and Radiance Medical Spa will be joining forces with Heartland Dermatology Center and Heartland Aesthetica, with the acquisition officially taking place on January 1, 2027. This step is a testament to our dedication to providing you, our valued patients, with the highest level of dermatological care.

As you may know, Heartland Dermatology Center shares our commitment to patient-centered care and a deep understanding of the importance of excellence in standard of care. This partnership will only serve to enhance the comprehensive services you have come to expect from Ricks Advanced Dermatology and Radiance Medical Spa.

I want to emphasize that while there are changes ahead, the core of what you love about our practice will remain unchanged. Our team, including myself, will continue to be here for you, working hand in hand with the experienced professionals from Heartland Dermatology Center. This collaboration will allow us to further elevate the care we provide and offer a wider range of expertise.

Your existing appointments, medical records, and treatment plans will continue without any interruption. We remain dedicated to providing you with the same level of personalized attention and high-quality care that you have always received at Ricks Advanced Dermatology and Radiance Medical Spa.

Your comfort and well-being remain our top priorities, and we are committed to ensuring that this journey is as smooth and positive as possible.

I want to personally thank you for your trust in Ricks Advanced Dermatology and Radiance Medical Spa over the last eleven years. This partnership with Heartland Dermatology Center opens new horizons for us, and I am truly excited about the possibilities it brings for your health and well-being.

Warmest regards,

Dr. Matthew Ricks
